

Hi iPhone Photography Class: Class 3 Summary

We had a number of you who attended class in person on Monday, and the rest of you will be able to watch the class using the YouTube link below. Monday we covered the Editing Tools built into the Photos App on your iPhone. There are a number of things you can do to make your photo look better.

I'm sorry that the video is so dark, but I felt it was important to have the picture on the TV look as accurate as possible so I set the exposure on it.

<https://youtu.be/WTGXyZXj820>

I did not get to the Markup Tools or the Touch Retouch App, so will cover them in a later class. Please feel free to watch the YouTube tutorials on them ahead of time, however

Have fun editing your videos. A special thanks to those of you who sent me pictures. Those are the ones I used in this lesson.

Next week I will be covering ways to organize your photos.

Get out there and take more pictures.

Grace
