

Hi Folks,

Wow, I am amazed that 12 of you showed up in person to practice taking pictures yesterday. There were 9 of us in The Dunn with Karen and me, and 3 in the Provincial House with Judy. It was so nice there were dry locations with interesting things to photograph.

For those of you who didn't venture out, for various reasons, I have placed the one-page "Checkoff List" handout in your MW mail box. It is just a guideline of things to try between now and next week.

I highly recommend that you watch the video of Class 1, or at least skim through it to parts you would like to review, before next Monday's class.

Here is the link to the page I put on my website with "Composition" suggestions. That might help you work through the checklist.

Next week I will be covering the Editing Tools. How can you make your photos look better???

You are welcome to e-mail me ONE of your photos to use in class.

Until then, enjoy taking pictures.
